BUSINESS ACQUISITION- Iskraemeco Regent Limited

On 15th February, 2011- Regent Electro Mech Pvt Ltd and its associates, acquired the stake of Iskraemeco d.d. In the Joint Venture Company, Iskraemeco Regent Ltd Trichy that manufactures energy meters and critical defense equipment.

The energy meter market has shown continued growth both in terms of demand volumes

as well as technological advances. Building a team for the future is at the core of Regent's post acquisition plans.

Ring Main Unit Projects

Distribution networks are normally formed by interconnecting a number of ring shaped grids. Distribution transformers are then con-

nected to the system by T-offs. Instead of specifying and selecting individual components required for a T-off, the required components are frequently available in an integrated package known as a ring-main unit (R M U) .

After successful supply & Installation of Approx. 220 Nos. of 11kV Ring Main Units, Regent has further received an Order for Supply & installation of 185 Nos. of Ring Main Units from CESC Ltd.

Dr. Miro Rozman

Dr. Miro Rozman, BSEE (Telecommunication), MSEE (Microelectronics), Phd (Metrology), is a mentor to the energy meter manufacturing unit. He has joined the company in March, 2011 as the Chief Technical Officer. His knowledge and experience in metering technology is the defining element in design, development and manufacture of meters at the Trichy factory.
